<b>Run:</b> 854	<b>Date:</b> 4 Jan 2014	<b>Site:</b> Manette Ranch	<b>Hares:</b> Big Dicks	<b>Scribe:</b> Observer
--------------------	----------------------------	-------------------------------	----------------------------	----------------------------

Remember this number people 854 the best run of the year the Trinidad/Bahamas consultant hare kept shouting to the arriving hashers. The Hashmaster called all together to the normal b.s. by the hares no hills, rivers, mud or water. The hares pointed on on down the river to start the run everyone checking but the right trail was up river passing a big lime with music blasting. Some hashers couldn't resist taking a little wine. We got a check and X; the right trail was uphill on to the main road and uphill again to never ending Mt Hololo. There we got another check. We checked all trails but no one was ON - the hare himself did not know saying I did not set this trail?? In the distance we heard ON ON across a bench trail to an X and a back check down hill through a slippery gully and uphill to a beautiful view overlooking Arima. Numbnuts shouting I lost my bitch Bella who was found and returned to him. There we met a beer stop and on to paved roads, at that point I thought I was on a Monday Run. We went up the river back on to the main road where we saw the ON IN and back to the run site. A good run by the Big Dicks and Chick although we never saw the chick the entire run. Maybe she was out getting boxes of Viagra for the hare who claimed to have set the run from the U.S to give to the dicks to make a hard run... which we have grown accustomed to. Good after-lime minus the parang band that was mentioned by hares.

**Poofter:-** Numbnuts – for having a former HM step in dog poo

### Colin's Contrivance

Kudos to the Big Dicks for continuously living up to expectation...putting on an overall great hash evening. The layout and preparation of the run site was exceptional. A very good example for future hares. The run was excellent, taking quite a bit out of the front runners. A most welcome beer stop!. Thanks again to our generous sponsors.

We now look forward to celebrating 30 continuous years as a hash. The committee asks all to come out and participate heartily at the events. Let's get those old, familiar faces out of the woodwork...as we continuously welcome new ones on-board with us....**On On!**
